

Alzan

City of Alzan

Original game by Trevor Toms

The plot takes place in a fictitious city named Alzan, which is built on top of the sea cliffs, and is inhabited by thieves and cut-throats.

Your quest is to find a way out of the city before they grab you, or before the plague takes hold of you.

Unfortunately, the city is surrounded by extremely high walls, and so you must find a way to scale them.

Welcome to Alzan

You must scale the walls if
you wish to escape from this
city of thieves and cut-throats.

You are in the main street out-
side a hardware shop. The street
stretches east/west and a small
alley leads north beside the
shop.
